

# EPRONIX

| Epronix E-Scooter S Model Battery Parameters Table |                |  |
|--|----------------|--|
| Performance Index                                  | Description    | Electric Scooter Battery Parameters    |
| S36 Model Swapple Battery Pack Parameters 1        | Rating Voltage | 37                                     |
|  | Charge Voltage | 42                                     |
|  | Capacity       | 9.6Ah-12.8Ah-16Ah-19.2Ah-22.4Ah-25.6Ah |
| S48 Model Swapple Battery Pack Parameters 2        | Rating Voltage | 48,1                                   |
|  | Charge Voltage | 54,6                                   |
|  | Capacity (mah) | 9.6Ah-12.8Ah-16Ah-19.2Ah               |
| Battery  | IP Class       | IP67                                   |
| Battery  | Material       | Aluminum                               |
